
SD Rule 20-51-35-08.**Recalls.**

If a participating pharmacy receives a recall notification, the pharmacy shall perform a uniform destruction of the recalled, donated prescription drug or medical supply and complete the destruction information form for the drug or medical supply destroyed. If a recalled drug or recalled medical supply has been dispensed, the participating pharmacy shall immediately notify the recipient of the recalled drug or supply pursuant to established pharmacy recall procedures. The participating pharmacy shall remove the recalled prescription drug or supply from the program database.

History: Adopted 49 SDR 51, effective November 27, 2022.
